SAKURA

Sakura is 7Sete's latest fashion story, capturing the breathtaking beauty of springtime in Kyoto during the iconic cherry blossom season.

Soft, delicate silk ensembles blend seamlessly with sunlit streets, adorned with nature's own artistry—white and rosy petals drifting in the air, evoking a mystical, almost otherworldly allure. Colours remain scarce, save for the striking presence of a black-eyed girl, her crimson lips, and immaculate white blouses crafted from the purest silk threads imaginable.

Like the ethereal silks themselves, there is a fragile beauty in this fleeting moment—a quiet acknowledgment of impermanence. Sakura reminds us that life, like beauty, is transient. Yet even as it inevitably passes, it renews in cycles, returning in an altered, yet equally mesmerizing form.

This story invites us to cherish the present and embrace the future with optimism. As each spring arrives, we prepare to revel in its beauty, knowing that it will fade, shift, and vanish—only to reemerge, transformed and stronger than before.
